

Go ahead with CeraShield. **NEW!**

Be a step ahead of your competitors

CeraShield is the latest innovation in the field of cutting technology from Toolmaker Solutions by CERATZIT providing best performance in both hardwood and softwood machining.

The unique grinding and coating process allows us to create a long-lasting cutting edge which practically rules out wear on the rake face.

With this application improvement in the production process, CeraShield supports more accurate price calculation and hence higher margins.

The longer tool life of CeraShield reduces the costs of your stock turnover as you can generate more profit while selling fewer goods.

In addition, you can order our latest technology from stock, allowing quicker access and reduced stock costs – innovation just in time!

Let us convince your customers

Advantages

Fewer changes necessary due to tool wear

Consistent cutting quality

Improved wood quality

Less wear

Compatible with existing tooling systems

Benefits

Minimised downtime increases productivity

Little or no further processing needed

Cost savings

Better life cycle assessment within production and reduced waste disposal costs

No acquisition costs
