

CeraShield – more performance for softwood

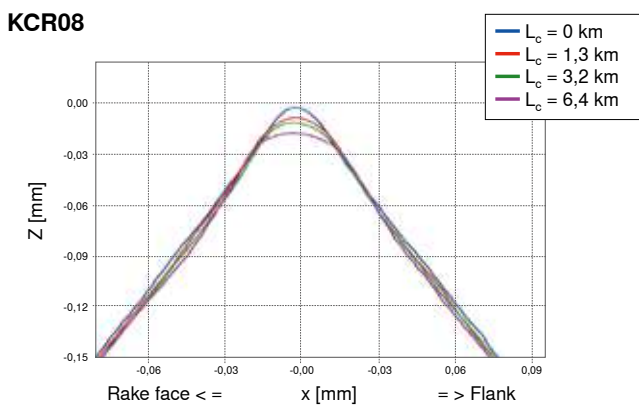

L_c = Cutting distance

See for yourself

With CeraShield you can look forward to a clear increase in productivity in direct comparison with uncoated knives of grade KCR08.

Thanks to a special coating and grinding process you can benefit from a long-lasting cutting edge, which not only makes the machining of softwood easier but also offers a better cost-benefit ratio.

You can count on the technology leader for wood machining!
