

## CeraShield – more performance for hardwood

$L_c$  = Cutting distance

### Coating makes the difference

CeraShield not only reduces cutting edge wear, in the long run it also allows you to achieve a better quality of cut when machining hardwood.

Thanks to our recently developed coating process, you can look forward to a clear increase in productivity compared to uncoated knives in grade KCR08.

You can count on the innovation generator of the sector - Toolmaker Solutions by CERATIZIT.
