

## Indexable knives

We are constantly looking for new ways to make you even more productive and successful.

Our indexable knives have a worldwide reputation for high geometrical precision, resulting in an outstanding surface quality of the workpiece in a short space of time.

Always one step ahead: with our new coating for knives, we are the first to introduce a new and unique technology to the market which protects the cutting edge of the knife, thus crucially enhancing both tool life and cutting quality.
